EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joyce von Natzmer on or about 3-12-04.

The application has been amended as follows:

In claim 1, line 2, --of the organocobalt complex-- has been inserted before "through".

EXAMINER'S REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claimed invention is free of the prior art of record because the prior art of record does not teach or fairly suggest a bioconjugate of a bioactive agent and an organocobalt complex wherein the bioactive agent is covalently conjugated to the cobalt atom through a non-reactive atom in the bioactive agent molecule, and which bioactive agents include peptides, proteins, nucleic acids and analogues thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S COMMENTS

Adequate representatives of bioactive agents, and non-reactive atoms therein, have been provided in the instant disclosure, including on pages 7-12, 52 and 64 of the specification. Adequate representatives of organocobalt complexes, including comprising covalent attachment of bioactive molecules to the cobalt atom, have been provided throughout the instant specification, including on pages 12-14 and 35-38.
